LETTER OF TRANSMITTAL

CHAPEL HILL, N. C., December 20, 1916.

HONORABLE J. Y. JOYNER,

*State Superintendent of Public Instruction,
Raleigh, N. C.*

DEAR SIR:—I have the honor to submit herewith my ninth Annual Report of the Public High Schools, established under an act of the Legislature of 1907, for the scholastic year ending June 30, 1916.

I have included, also, in accordance with your instructions, such a report of the city and town high schools as could be made from the reports sent in to your office by the superintendents and principals of these schools. It was impossible to make this part of the report complete, since so many of the City Superintendents make to your office no separate report of their high school work. It will be noted, by reference to the tables for the city high schools, that the statistics used for several schools are those reported for the year 1914-15, but where this is the case attention is called to the fact by a footnote. So few reports were sent in by the principals of the private schools that it was not deemed worth while to include them in this report.

Very truly yours,

N. W. WALKER,
State Inspector of Public High Schools.

REPORT OF THE STATE INSPECTOR OF PUBLIC HIGH SCHOOLS, 1915-1916

PART ONE—RURAL PUBLIC HIGH SCHOOLS

SUMMARY OF THE YEAR'S PROGRESS*

Number, Classification, and Distribution of Schools.—During the scholastic year covered by this report, 1915-1916, there were 212 public high schools in operation receiving State aid. Three schools were discontinued and one new school established, making a net decrease of two in the number in operation. The number of schools reporting four-year courses increased from 89 to 114; the number reporting three-year courses decreased from 87 to 77; and the number reporting two-year courses decreased from 38 to 21. There are now only five counties in which no public high schools are in operation, namely, Chowan, New Hanover, Pasquotank, Perquimans, and Watauga.

Enrollment and Attendance.—The enrollment this year increased from 8,986 to 10,379 and the average daily attendance from 6,773 to 7,873. The increase in enrollment over the preceding year was 1,390, or 15.50 per cent, and the increase in daily attendance was 1,100, or 16.24 per cent. The number of students enrolled from outside the local districts increased from 2,561 to 3,053 and the number of boarding students enrolled increased from 1,680 to 1,947.

Teaching Force.—The number of teachers employed increased from 434 to 464, and, as has been the case for the past several years, there was urgent need for more assistant teachers in many of the more prosperous schools. In too many cases inadequate funds made it impossible to meet this need.

Receipts and Expenditures.—The total receipts this year increased from \$261,211.32 to \$265,534.73, and the total expenditures increased from \$247,253.59 to \$256,251.73, making a net increase of \$4,323.41 in receipts and \$8,998.14 in expenditures.

The average salary paid the high school principal was increased from \$837.44 to \$840.35. There were 55 principals who received \$1,000 or more. The number who received less than \$500 was reduced from five to four. The total expenditures for principals' salaries increased from \$177,880.84 to \$178,154.61. The amount expended for the salaries of assistant teachers was increased from \$56,653.75 to \$64,591.77.

The average amount expended per student enrolled was \$24.69; the average cost per student in daily attendance was \$32.55.

Length of Term.—The average length of term per school was 31.3 weeks as against 31.43 weeks for the preceding year. Or, taking the teacher as the unit and not the school, the average length of term was 31.51. There were 21 schools having a term of 36 weeks, 4 having a term of 34 weeks, 132 having a term of 32 weeks, 12 having a term of 30 weeks, 5 having a term of 29 weeks, 37 having a term of 28 weeks, and 1 having a term of less than 28

*This part of the report pertains only to the Rural Public High Schools. For a report of the City and Town High Schools, see Part II. of this report.

weeks, the minimum term allowed under the law. This school was cut short by an epidemic of smallpox.

Buildings and Equipment.—The campaign for better buildings and equipment for the high schools which has been in progress for the past several years has gone on unabated. Marked progress has been made in the way of constructing new buildings better adapted to high school needs, in providing dormitories, in enlarging, remodeling, and otherwise improving old buildings already in use, and in providing better equipment. This campaign must go on until every high school receiving State aid is well housed in a modern building that is sufficiently equipped to enable the school to do well the work it undertakes to do.

During the last year (up to December 15, 1916) new buildings for 20 schools have been erected, or are now under construction, totaling a cost of \$285,200; 39 schools now own 46 dormitories worth \$174,200 as against 26 schools owning dormitories worth \$115,950 a year ago; 24 schools report scientific apparatus worth \$9,561 as against 21 reporting apparatus worth \$5,596 a year ago; 146 schools report that they have 29,176 volumes of reference works and fiction as against 25,744 such volumes reported by 156 schools a year ago. The total expenditures during the past year, and up to December 15, for new buildings, dormitories, additions to old buildings, etc., amounted to \$348,350. Eleven other schools have made provision for erecting new buildings not yet been begun that will cost \$151,000. (Of course, it must be understood that the buildings in which these State-aided high schools are housed are used also to accommodate the elementary schools of the communities in which the high schools are located.)

The following tables will show the schools that have erected new buildings, improved old ones, provided dormitories, etc., and the amount spent in each case, as well as the total value of the school plants.

COMMENTS, SUGGESTIONS, AND RECOMMENDATIONS

In our present school system there are three classes of schools operated at public expense that are undertaking to do high school work. These three classes are (1) the high schools of the cities and towns operated under special charters, (2) the rural public high schools which receive State aid for high school instruction, and (3) the public schools of the villages and country districts having two or more teachers but not falling in either of the two former classes.

The first named class, the city and town high schools, are independent of the operations of the public high school law. They are not required to keep definite records or to make separate reports of their operations, functional, financial, or otherwise; they are not required to measure up to any standard of excellence, or to follow systematic courses of instruction, or to have licensed teachers. They are, in a word, so far as the public high school law is concerned, a law unto themselves. There are about ninety such schools with an enrollment of about 10,000 pupils.

In the larger towns and cities these schools are, as a rule, under competent supervision, and many of them measure up to good standards of efficiency. A few of them are doing a superior grade of work. Most of them, however, need to maintain better standards, to select their teachers with more care, and to follow more systematic courses of instruction. The State certainly ought to know what they are doing, what high school instruction is costing in these schools, wherein they are falling short, what should be expected of them, and wherever possible coöperate with them in the solution of their problems in the way of helping them to elevate their standards and increase their efficiency. Further facts and statistics about the city and town high schools will be found in Part Two of this report.

The second named class, State-aided rural high schools, 212 in number with an enrollment of over 10,000, are required to meet certain minimum standards before receiving aid from the State. These standards are, to be sure, at present rather low, but they are advancing. Some of the State's best high schools at present are to be found in this class. We do know what these schools are doing, for they are required to keep definite records and to render complete reports annually. The State has an opportunity, therefore, to coöperate with them in an intelligent way that has proved helpful to them and has enabled them to go forward in the past few years at a remarkably rapid rate. The development of this system of schools has been brought about largely by bringing into them a body of active young men

BENSON HIGH SCHOOL, Johnston County. Erected, 1915. Cost, \$30,000

LILLINGTON HIGH SCHOOL, Harnett County. Home Economics Department

and women of superior training and ideals as principals and teachers. They have been trained, most of them at least, in our best institutions, and are men and women of superior scholarship and ideals, wide awake, enthusiastic about their work, and have a fine spirit of coöperative helpfulness. They know what they are trying to do, are studying their problems, and are doing all in their power to make the country high school function in a helpful way in our educational system. The facts and statistics about this part of our school system will be found in Part One of this report.

The third class of schools are purely local in character, unorganized, and, as a rule, inefficient. There are, however, some of these schools in the more progressive counties, like Wake, Durham, Guilford, Mecklenburg, and Buncombe, that are maintaining good standards and doing a good grade of work. There are about 800 schools in the State falling in this class. They enrolled last year possibly 10,000 pupils doing some high school work of varying degrees of efficiency. A number of these schools if developed can be made to serve a useful purpose in our educational system, though most of them should not attempt high school instruction at all. In too many cases they are attracting boys and girls of the home communities that should be in the better organized State-aided high schools.

In addition to these three classes of secondary schools operated at public expense, there are many schools of secondary grade under private and church control. The number of these as well as the number of students enrolled in them are matters of speculation. Some of these schools maintain good standards and turn out a good product. Conspicuous among this class are the Asheville School, the Bingham School at Asheville, Oak Ridge Institute, Trinity Park School, and Warrenton High School. Most of these schools, however, are forced for financial reasons to employ teachers at ridiculously low salaries and then overload them with work. There are some of these schools having 50 or 60 pupils per teacher. The result is crowded classes, overworked teachers, and poor work.

But to come back to the discussion of the high schools operated at public expense. There is needed a comprehensive policy, a plan backed by law, that will recognize in some way all worthy high schools operated at public expense, city and rural, and that will make possible the development of good high schools where high schools are needed and prevent the multiplication of weak high schools where high schools are not needed. It is impossible to build up an efficient high school in every cross-roads community. It becomes necessary to concentrate our efforts in each county at a few centers where there is a quickened school interest, intelligence, and available means, all of which are necessary to the development of schools of the right kind. It might be advisable to extend State aid to all well organized and well managed four-year high schools of the cities and towns that admit pupils to the high school grades from the country districts, State aid, of course, to be given under the requirements of the public high school law and primarily on the basis of attendance from outside the local district. This matter, I think, is worthy of serious consideration.

The rural public high schools that receive State aid are not State schools in the sense that the State should be looked to to furnish the greater part of the funds with which to operate them. The main burden of support must fall on the counties and the local communities in which these schools are

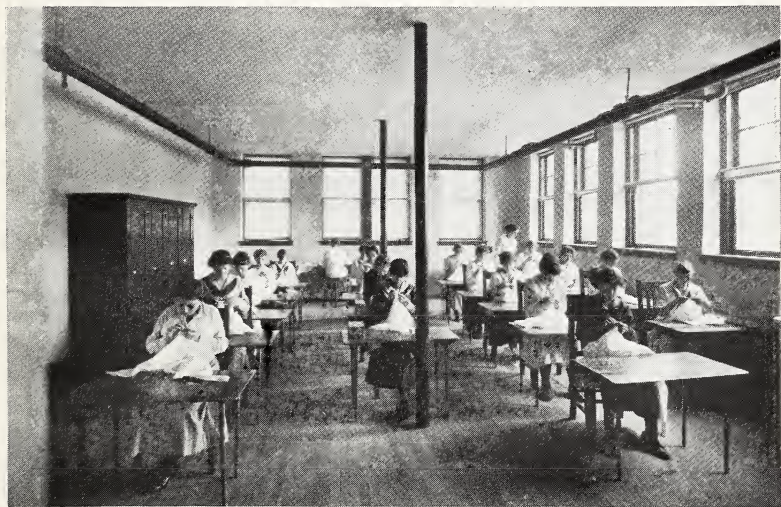

located. A State appropriation for high schools that would check local initiative on the part of communities and counties and cause them to look to the State, rather than to themselves, as the principal source of support would prove a curse rather than a blessing. And the greater burden of support does, under our present plan, fall upon the counties and the local communities in which the high schools are located. From these sources come over two-thirds of the funds raised for maintenance and all the funds raised for buildings and equipment. State support must be sufficient, however, to stimulate and to encourage local initiative and effort, and sufficient to enable the State to direct and to guide the high school work along right lines. If from the point of view of the State courses in agriculture and home economics are thought to be a necessary part of the country high school curriculum, and it appears that country communities will not be likely of their own accord to introduce these courses, then a part of the State appropriation used to stimulate local initiative and to encourage local effort in this direction could be made to yield large returns. If from the point of view of the State it is thought necessary for the best interests of education in general, and of secondary education in particular, to hold in the service of the country high schools young men and women of the best training and ideals, then a part of the appropriation used to increase the salaries of such men and women in order to retain their services for a series of years would yield a large return. If from the point of view of the State, high school buildings properly arranged, well constructed, and adequately equipped with library facilities and apparatus for science work are regarded as modern necessities in educational work, and it is not likely that communities and counties will pay the proper regard to these matters unless they are required to do so, then a part of the appropriation set aside to be given only to schools providing such buildings and equipment, or even to enable them to provide, say, libraries and apparatus, could be made to yield a large return.

The State appropriation should, in a word, be used for four important purposes: (1) to stimulate counties and communities to initiate new and necessary lines of work which they would not be likely to undertake of their own accord, as, for example, putting in courses in home economics, agriculture, and teacher training; (2) to encourage counties and communities to inaugurate new and necessary policies, which they would not be likely to put into practice if left without direction, as, for instance, putting the high school principals on salary the year round; (3) to encourage schools to maintain higher standards of excellence, as, for example, lengthening the school term, organizing the work on a sounder basis, employing better teachers, paying better salaries, etc.; (4) to equalize in some measure opportunities for high school training by helping to support good high schools where they are needed in counties and communities that have not the funds necessary to maintain good high schools.

In order to enable the high schools to continue their progress in the directions here hinted at, it is imperative that the incoming Legislature be asked to increase the appropriation from \$75,000 to \$150,000. There has been no increase in this appropriation since 1911. In the meantime the attendance has almost doubled and new demands have arisen that it is impossible to meet in any adequate way unless increased funds can be secured. The demands this year from schools sorely in need of additional assistance

CHAPEL HILL HIGH SCHOOL—COOKING DEPARTMENT

CHAPEL HILL HIGH SCHOOL—SEWING DEPARTMENT

amounted to nearly \$150,000, and these demands did not take into consideration the introduction of the new lines of work suggested below in my recommendations.

Recommendations

1. That the State appropriation for public high schools be increased to \$150,000.
2. That provision be made for putting high school principals on salary the year round where this is feasible and that school officials be encouraged to retain the services of successful principals for a series of years.
3. That provision be made for establishing elementary teacher training courses in connection with a number of the stronger high schools.
4. That schools be encouraged, by increased apportionments, or by special apportionments for these specific purposes, to provide suitable libraries and suitable quarters and equipment for courses in science, home economics, and agriculture.
5. That city and town high schools maintaining good four-year courses be permitted to share in the distribution of the high school appropriation, under the general high school law, and that apportionments to such schools be conditioned primarily on their attendance from the country districts.
6. That school officials, city and rural, be encouraged to maintain standard four-year high schools, and that they be required to construct all high school buildings in accordance with sound principles of school architecture and to equip them adequately for the work they undertake to do.

EXTRACTS FROM PRINCIPALS' REPORTS, 1915-1916

Alamance County

PRINCIPAL J. GLEN McADAMS, *Sylvan High School*:

1. Hydraulic ram installed to furnish building with water.
2. Over \$200 worth of books donated by ex-Senator Joseph M. Dixon. Library cases constructed.
3. Twenty-five dollars (\$25) raised toward buying type for printing press.
4. Five prizes and a baseball game won at county commencement at Graham, Saturday, April 22d.

Alexander County

PRINCIPAL J. L. TEAGUE, *Stony Point High School*:

This is the close of the sixth year under the management of the present principal. We found it a three-teacher school; we leave it with six teachers. We found it doing nine grades of work; it now does eleven grades. This has, in many respects, been the best year of all.

PRINCIPAL W. H. TYLER, *Taylorsville High School*:

Our school increased this year in number. We are "raising" the standard so that if a young man or woman takes a diploma from this school it shall mean a full four years of earnest work.

We need more money for our high school department.

We need the half-time service of another good high school teacher.

Alleghany County

PRINCIPAL B. ROBINSON, *Turkey Knob High School*:

New piano costing \$225 purchased; music—instrumental and vocal—offered with good classes in each. Mail box placed at school building and grounds improved.

Avery County

PRINCIPAL JNO. W. JAMISON, *Elk Park High School*:

This past year we erected a three-story brick building at \$8,000. Put in new desks and chairs at \$1,050; new piano, \$300; best blackboards, \$75; kitchen cabinet and table, \$25; new Singer sewing machine, \$55; new oil stove, \$20; library table, \$10. Improved the grounds considerably by planting out flowers, seeds, and bulbs.

Beaufort County

PRINCIPAL HENRY W. SMITH, *Aurora High School*:

Since last report was made two acres have been added to the school grounds, and a new brick building with six classrooms, auditorium, and two dressing rooms have been built. One dressing room is used for music room, the other for the library. New furniture has been installed throughout the building.

Since last year the enrollment has been increased 65 per cent and the average attendance 58 per cent.

This year our school for the first time took part in the triangular debate with Pantego and Vanceboro under the auspices of the High School Debating Union. Also for first time the school sent representatives to the district contests at Greenville, in which we won the declaimer's medal.

Athletic associations for boys and girls have been formed. Several games of both baseball and basket-ball have been played with other schools.

Bertie County

PRINCIPAL LESLIE G. BULLARD, *Aulander High School*:

A new \$20,000 building was completed January 1st, and has been equipped throughout with new patent desks and blackboards. A farm-life and domestic science department has been added.

Buncombe County

PRINCIPAL H. C. MILLER, *Barnardsville High School*:

New \$8,000 brick building is to be built during the summer. An assistant high school teacher is to be added. At present there is much interest in making a farm-life school at Barnardsville, for which ten or more citizens are considering the purchase of land. When we get our building I believe the people will take proper steps to establish a farm-life school. We paid a balance of \$44 on piano.

PRINCIPAL H. J. MASSEY, *Fairview High School*:

A water system which furnishes running water on the grounds has been installed at a cost of \$100. Desks, blackboards, stoves, etc., have been added at a cost of about \$65. Fifty dollars (\$50) has been paid on piano. These improvements are due to the Woman's Betterment Association.

HIGH SCHOOL GROUP, Rock Hill High School, Haywood County

ROCK HILL SCHOOL BUILDING, Haywood County. Erected, 1916
Cost, \$4,000

PRINCIPAL GEO. W. BRADSHAW, *Hominy Valley High School*:

The district has united with two other districts and has voted \$12,000 in bonds to erect a new building. The new building will be ready by next year, and there will be from eight to ten teachers.

There are approximately 375 school children in the new district. We hope to have two full-time high school teachers next year and add the eleventh grade, which will enable us to give four years high school work.

Burke County

PRINCIPAL M. S. GILES, *Glen Alpine High School*:

The patrons of Glen Alpine High School throughout the county seem to be interested in this school. There is a growing feeling among the people of the necessity of an education for the boys and girls. They are inquiring from time to time about the county high school located at Glen Alpine. The future of this school seems bright, but one of the outstanding needs is a modern high school building with up-to-date equipment.

During this year a course in teacher training was given to the third and fourth-year boys and girls. There was considerable interest taken by all those enrolled in this course. Charter's book on teaching common branches used. A similar course with added figures will be given in 1916-'17. With such a course thoroughly planned and worked out a long-felt need will, in a degree, be met.

The principal, feeling the need of "preparedness," will attend the teachers' college at Columbia University during the summer.

Cabarrus County

PRINCIPAL D. L. RIDENHOUR, *Rocky River High School*:

One new room with equipment; new desks for principal's room; repairs on dormitory; improvements on school grounds.

Caldwell County

PRINCIPAL H. E. STORY, *Oak Hill High School*:

We have new brick building 75x85, two stories high, with two large basement rooms, costing \$7,000; and it will cost approximately \$3,000 more to furnish it.

The erection of this building is the result of the united efforts of the people of the community, who, for the most part, furnished the material and did the work.

Twelve other families voted themselves into the special-tax district. We expect a rapid growth, and will be in position to carry a full four-year high school course next year.

Carteret County

PRINCIPAL G. W. RHODES, *Atlantic High School*:

During this school year the following improvements have been made: By means of entertainments—gotten up after school hours—about \$75 was raised and expended for (1) a large bell for the schoolhouse, (2) two sets of maps in wooden cases for the high school recitation rooms, (3) expenses of commencement speakers, and (4) curtains for schoolroom.

Carteret this year held its first county commencement, in which we won (1) the prize for the best appearance in the parade, (2) the prize for the best recitation, (3) the prize for the best declamation, and (4) the prize for the best needlework in the exhibit.

Caswell County

PRINCIPAL ROBERT F. HOKE, *Milton High School*:

Arbor Day was celebrated by appropriate exercises.

Money was raised to equip the reading room with a table and curtains, and also to help secure—through the aid of the county superintendent—a \$30 original library for the high school.

The Milton High School Brass Band was organized and furnished creditable music for the commencement exercises.

A high school catalogue will be published and copies sent to pupils who have finished graded schools in surrounding districts; letters will be sent inviting them to enter Milton High School.

Catawba County

PRINCIPAL GEORGE B. STRICKLAND, *Murphy High School*:

Remarks relative to the Farm-Life Department: Equipment has been added as follows: new poultry house, made under directions of Professor Kaupp of Raleigh; a flock of eleven pure-bred Barred Rock chickens from State Department—cost of house and chickens estimated at \$250; two horses were purchased at a cost of \$450; electric light plant, \$500; gas light plant, \$250; dining-room added to girls' dormitory at cost of \$300; equipment for the domestic science department and the kitchen, including dishes, a Hoosier cabinet, machine, chairs, curtains, and tables, is valued at \$275.

Cherokee County

PRINCIPAL GEORGE B. STRICKLAND, *Murphy High School*:

1. Sanitary drinking fountains have been installed, two on the inside and one on the outside of the building.
2. Domestic science department has been installed.
3. Twenty-five native trees have been planted on the school grounds.
4. Concrete walk made across school ground.
5. Ten dollars (\$10) worth of physical apparatus bought.
6. Thirty dollars (\$30) worth of books added to the library.
7. Interest in education increased.

Cleveland County

PRINCIPAL M. A. HONEYCUTT, *Fallston High School*:

The high school pupils gave a play at several of the villages of the county and have purchased a piano. We expect to add a music teacher to our force next year.

PRINCIPAL N. M. LIVINGSTONE, *Grover High School*:

We had several entertainments, the proceeds from which were used to get swinging lamps, window shades, books, etc. We have started a fund to purchase our second piano.

CHERRYVILLE HIGH SCHOOL—GRADUATING CLASS 1916

CHERRYVILLE HIGH SCHOOL, 1915. Cost \$20,000 without equipment
Fourteen classrooms

Our people voted bonds for a new building, which we expect to be ready by next term. . . .

We won the State-wide Spelling Contest this year which was conducted by the State Inspector of High Schools.

Columbus County

PRINCIPAL C. U. WILLIAMS, *Chadbourn High School*:

We have equipped our library with a splendid case which will hold over six hundred volumes; added a hundred new books, including a supplementary English library consisting of thirty volumes, a \$30 State approved library, three sets of the Congressional Record, two good dictionaries, and a number of other books. We have equipped our library throughout with a card charging system.

We have also equipped one room and another partly with new improved steel desks, and purchased another piano for our music department.

The school has secured three good buildings for use as dormitories. Furnished rooms may be had for \$1 per month. A one-dollar matron fee is also charged. The entire cost averaged \$2.50 per week for the term for those who stayed the entire week. This was reduced to \$7.50 per month by those who went home on Fridays. This year the dormitory is being liberally patronized by those from a distance.

Craven County

PRINCIPAL J. E. McLEAN, *Dover High School*:

The auditorium stage has been enlarged and drop curtains put up; several teachers' desks and chairs bought; a large dictionary, a large flag, and case of maps as prizes at the county commencement. An annual was edited by the high school and flowers planted in yard.

The greatest achievement is the five graduates who, those taking a full course, received 15½ units credit at the State Normal.

Dare County

PRINCIPAL E. W. JOYNER, *Manteo High School*:

The new Manteo High School building has been completed since last year.

Davidson County

PRINCIPAL S. G. HASTY, *Churchland High School*:

Twenty patent desks have been purchased, flowers and shrubbery have been planted on the campus, and wall-paper has been purchased for one of the society halls.

Durham County

PRINCIPAL ROY THOMAS, *Bahama High School*:

The Farm-Life Department has the following equipment: barn, \$1,200; Domestic Science house, \$700; poultry house, \$50; twenty acres of land, \$1,500; cows, \$100; horse, \$150; implements, \$250; hogs, \$130; laboratory material for domestic science, \$150; chickens, \$10.

Held community fair; organized Community Betterment Club; and organized rural credit bank.

PRINCIPAL S. J. HUSKETH, *Lowe's Grove High School*:

The rooms for Agriculture and Domestic Science were completed at a cost, for building and equipment, of about \$1,500. Our little dormitory has been crowded with students and teachers. We hope to build a new dormitory for the boys this year. Our attendance from outside the local district has increased. We now have an auditorium with opera chairs costing \$350.

Edgecombe County

PRINCIPAL R. H. BACHMAN, *Tarboro High School*:

Courtis tests were given to all the school. The only standard pupil found was a senior.

Owing to crowded program, but one hour a week could be devoted to vocal music. . . .

Stenography and typewriting were introduced in the middle of the year. The course proved so popular that it was necessary to confine it to the two higher classes. Five machines were purchased, and we will double the number with the hope that we may let the pupils take up the course in the eighth grade. . . .

Forsyth County

PRINCIPAL C. C. SHARPE, *Kernersville High School*:

A granite wall has been constructed to hold the embankment off the sidewalk in front of the school. The interior of the building has been painted; the auditorium has been papered, and the stage ceiled and decorated. A domestic science room has been equipped and shade trees have been set out.

The Betterment Association has expended about \$200 in improving the school building and property. The school board has also made several improvements on the building.

Domestic science was introduced with one lesson a week. The cooking class won first prize at county commencement; our school also won the county championship in literary and athletic achievements in this contest.

If we can get some assistance from the State and county, our school board will add an extra teacher and the eleventh grade next year.

Fifteen students were promoted from the seventh grade to the high school department.

PRINCIPAL A. A. LONG, *Lewisville High School*:

We now have a splendid and well equipped Domestic Science Department. Much interest has been shown in this work, and, as a result, our girls won a nice oil stove as a prize in the county commencement contest.

PRINCIPAL J. C. REDFERN, *Walkertown High School*:

Community Club was organized and raised \$100 with which the library was enlarged, auditorium improved, and stage enlarged. The Community Club is composed of the wide-awake women of the community, and is doing a fine work for the school.

The school has catalogue for the first time in its history; tennis and basketball outfits purchased; a Domestic Science Department installed; and a new classroom built at a cost of \$600.

LILLINGTON HIGH SCHOOL, Harnett County. Dormitory

GASTON COUNTY FARM-LIFE SCHOOL, Dallas. Boys' Dormitory (on farm)

Franklin County

PRINCIPAL W. R. MILLS, *Louisburg High School*:

This was our first year to have a four-year high school term. The work was a success, and we have convinced the public that we need more room and a larger teaching force.

Gaston County

PRINCIPAL H. A. QUERY, *Belmont High School*:

A new brick building equipped with all modern conveniences has been erected by a \$28,000 bond issue, and the playground increased to six acres.

A Domestic Science Department has been added, costing \$300. The faculty has been increased from twelve to fifteen for next year—all college graduates or experienced teachers.

PRINCIPAL JOE R. NIXON, *Cherryville High School*:

During the past year a new building with twenty-two rooms, including boiler and two toilet-rooms, with steam heat, electric lights, and other modern fixtures, has been erected at a cost of \$20,000. The new building is well located, with $5\frac{3}{4}$ acres of good ground.

Ladies' Betterment Association established a Domestic Science Department at a cost of \$450.

Agricultural instruction given by Mr. Kirby of Dallas Farm-Life School twice a week.

Five hundred dollars (\$500) was given by school board for beautifying playground and making athletic field.

We have twenty-eight graduates in the tenth grade, and expect to add the eleventh grade next year. The school is well patronized by surrounding districts. Good records were made in all athletic and literary contests.

Our people show an increased interest in education and willingly support the school.

PRINCIPAL J. B. HENSON, *Dallas High School*:

Dormitories are located at graded school building and school farm. Laboratory equipment: home economics, \$400; agricultural (classroom), \$200; new barn, \$1,000; farm No. 1, \$6,000; farm No. 2, \$1,000.

Gates County

PRINCIPAL J. R. WARE, *Gatesville High School*:

We are certain of raising the tax rate 15 cents. This will maintain the school and eventually pay off the debt of the school building.

We have ceiled the auditorium and seated it with 162 nice chairs. We also raised enough money to build a belfry and finish plastering the auditorium.

PRINCIPAL MARY I. WHITE, *Sunbury High School*:

Our school building is to be enlarged and an auditorium added. This will give room for a fourth teacher and thus enable us to add another grade. The extra teacher will assist in high school and intermediate work. Two hundred and thirty-three dollars (\$233) was raised for this improvement by entertainments and tuition from students living outside the district.

Graham County

PRINCIPAL A. E. STEVENSON, *Robbinsville High School*:

Since last report we have moved into new quarters. Prior to this time we have occupied a building used as a Presbyterian church. Fifteen hundred dollars was paid for this new property. The lack of funds is the only drawback to high school efficiency.

Granville County

PRINCIPAL J. A. BRIDGES, *Creedmoor High School*:

A house was secured by the school board for the teacher.

During the year we raised \$100 by entertainments and paid off the \$65 debt on the piano. Shades for windows were bought at a cost of \$30. Shade trees were planted on the school ground and in the yard of the principal.

PRINCIPAL J. RALPH WEAVER, *Knap of Reeds High School*:

We have improved our school by making an athletic field and enlarging the music and domestic art room. To the equipment we have added a new Singer sewing machine, a table and a stove. . . .

By a box supper on Thanksgiving night we raised \$53 with which we purchased our machine, ball outfit, and supplied the candies and fruit for a community Christmas tree.

At the county fair we won first prize in a sewing contest; at the county commencement we won second place in points, first prize in Bird and Animal contest, and second in both Wealth and Good Roads contest. . . .

Greene County

PRINCIPAL EDGAR T. HINES, *Hookerton High School*:

The community has voted a special tax and hopes to soon have a first-grade high school.

Guilford County

PRINCIPAL E. J. COLTRANE, *Jamestown High School*:

A new building has been erected at a cost of \$25,000. This building is equipped with good desks, steam heating plant, and other conveniences.

Interest in science courses has been increased by additional laboratory fixtures.

The dormitories have been moved to the rear of the new building and stables built for the accommodation of those who drive to school. The old barn has been remodeled and a new one planned for the summer months.

A considerable amount of development has been effected on the farm. We now have 24 acres and rent 20 acres additional. Our agricultural instructor has been doing extension work among the farmers of the community.

Altogether, this has been the most satisfactory year in the history of the school.

Harnett County

PRINCIPAL J. E. DOWD, *Angier High School*:

We have raised about \$200; organized Betterment Association; added the eleventh grade; studio for the music department; built an extra room for the eleventh grade; purchased 20 desks and 10 yards of hyloplate board.

Henderson County

PRINCIPAL N. L. PONDER, *Mills River School*:

For the promotion of athletics a track team and a basket-ball club was organized. . . .

A well was drilled by the aid of the students at a cost of about \$100. The students also raised a fund to build a stable. The Betterment Association has done considerable work by oiling the floors, repairing, etc.

Hyde County

PRINCIPAL A. W. DAVENPORT, *Swan Quarter High School*:

We set out five pecan trees, bought \$30 worth of books, put curtains to all the windows, and paid \$30 on the piano.

Iredell County

PRINCIPAL VICTOR V. ADERHOLDT, *Troutman High School*:

We beautified our school grounds by planting a hedge; purchased blackboards; did good work in athletics and debating; organized a Woman's Betterment Club.

Jackson County

PRINCIPAL CHARLOTTE YOUNG, *Webster High School*:

During the year we have made the following improvements: a room for the high school, \$300; a large rug for the stage, \$10; lamps, \$9; one large picture, \$6; 5 chairs for teachers, \$6; one new stove, \$12.

We have added to the attractiveness of our school by planting trees, sowing flower seeds, and making a tennis court.

Johnston County

PRINCIPAL C. W. E. PITTMAN, *Kenly High School*:

We have drained the grounds, set out trees, planted shrubs, sowed flower seeds, and improved and increased our basket-ball courts.

PRINCIPAL J. H. GENTRY, *Wilson's Mills High School*:

Dormitories have been completed and rooms furnished with beds, mattresses, washstands, etc. A range, cooking outfit, and two tables purchased for the Domestic Science Department.

Lincoln County

PRINCIPAL H. M. LOY, *Denver High School*:

We have painted the building, bought some new desks, oiled the floors, improved our library, put in new blackboards, and improved the grounds.

Macon County

PRINCIPAL R. L. MADISON, *Higdonville High School*:

We have erected a woodshed and sanitary closet.

Twenty-five patent desks, a stove, several recitation benches, and two auditorium lamps have been added to the equipment.

We have organized two literary societies and a debating club, representatives of which were successful in winning both sides in the triangular debate. We also won a handsome pair of field-glasses, offered by Dr. Harley Lyle, by defeating Franklin High School in a spelling match.

By entertainments we raised \$237. This was applied to the purchase of furniture, to the lengthening of the school session to eight months for the primary and intermediate departments, and to making up a deficiency in the community's local tax receipts.

The community has raised \$300 to add another room to the building, and \$250 to secure the additional appropriation from the State to provide another high school teacher and to extend the course of study next session. With our increased capacity and teaching force we shall easily secure an attendance of one hundred high school students next session.

Madison County

PRINCIPAL R. G. ANDERS, *Madison High School*:

Auditorium was seated with opera chairs.

Martin County

PRINCIPAL W. H. MIZELLE, *Robersonville High School*:

One teacher has been added to our force.

We won both sides of question in triangular debate.

Our school work has been encouraging and our commencement the best we have ever had.

PRINCIPAL J. T. JEROME, *Williamston High School*:

We have added another teacher for the high school next year and increased the length of recitation periods to 45 minutes.

An election has been called for the purpose of voting \$25,000 in bonds for a new building. General progress in high school is very good.

McDowell County

PRINCIPAL I. C. GRIFFIN, *Marion High School*:

The increased number of students from outside the district and the fact that the Teacher Training Department has reached 28 prospective teachers indicates the service this school is rendering to the people.

Mecklenburg County

PRINCIPAL J. C. STUART, *Huntersville High School*:

With a \$15,000 bond issue and a \$5,000 donation from the county we are building a \$20,000 house. Three acres have been added to the school grounds by donation. Our enrollment has been increased 20 per cent, and the school is making general progress.

Mitchell County

PRINCIPAL D. M. STALLINGS, *Spruce Pine High School*:

By giving entertainments, box suppers, etc., we have been able to paint the school building, fence in the yard, and to buy and pay for a \$400 piano. We hope to have a modern brick building by the opening of our next school year.

GENERAL VIEW LOWE'S GROVE HIGH SCHOOL, DURHAM COUNTY

Montgomery County

PRINCIPAL J. A. RUDISILL, *Biscoe High School*:

In our work we have used Mr. Page's farm, dairy, etc., for agriculture; J. A. Rudisill's kitchen for domestic science; and Mrs. C. C. Crocker's poultry plant for the study of poultry.

PRINCIPAL S. G. LINDSAY, *Troy High School*:

We have enlarged our auditorium stage at an expense of \$30, and have improved our playground and race track at a cost of \$25 and work by the students. Our enrollment has nearly doubled in the past three years, and the number coming from outside the district continues to increase.

Moore County

PRINCIPAL T. HENDRIX, *Eureka High School*:

Practically the entire plant has been established since last report. Arrangements are being made for a separate library building. One hundred dollars (\$100) and one hundred books have been donated for this purpose. This summer a dormitory with accommodations for 50 pupils will be erected.

Northampton County

PRINCIPAL J. W. MCINTOSH, *Rich Square High School*:

We have installed electric lights in the dormitory and purchased a piano for same. Sixty dollars (\$60) worth of apparatus has been added to our physics equipment.

Onslow County

PRINCIPAL I. M. BAILEY, *Jacksonville High School*:

The size of the building has been doubled by adding an auditorium, two classrooms, and two music rooms. Arrangements are now being made to accommodate the students from outside the district. A voice and expression teacher has been added to the faculty.

PRINCIPAL JOHN W. HALL, *Richlands High School*:

We are now making arrangements to build three more classrooms and an auditorium with a seating capacity of 500, which we hope to have completed by September 1st.

Orange County

PRINCIPAL FRED W. MORRISON, *Chapel Hill High School*:

At a cost of \$40,000 on a \$10,000 site the town has erected a model public school building complete in every detail. It is equipped with a steam and hot-air heating system, up-to-date ventilation, adjustable desks, domestic science fixtures, with provisions for teachers' rest rooms, for shower baths, science laboratory, etc.

PRINCIPAL R. G. FITZGERALD, *Hillsboro High School*:

Two sanitary closets have been built, 10 desks purchased, and 2 primary libraries begun.

Pender County

PRINCIPAL C. O. FISHER, *Burgaw High School*:

We added to our equipment 90 new desks, 14 rear seats, and 11 new window shades.

Pitt County

PRINCIPAL J. H. ROSE, *Bethel High School*:

On May 30, 1916, Bethel School District, No. 4, voted bonds to the amount of \$20,000 for the purpose of erecting a new school building, which we hope to have ready for occupancy by January 1, 1917.

Polk County

PRINCIPAL E. W. S. COBB, *Columbus High School*:

The enrollment, average attendance, grade of work done, and general school spirit have steadily and surely increased for the past six years.

Funds raised by entertainments, box suppers, etc., have been spent for books for the library and domestic science equipment.

Our debating teams went to Chapel Hill for the final contest. Everything considered, this has been our best year for the Columbus High School.

Randolph County

PRINCIPAL C. L. SHAMBURGER, *Farmer High School*:

We have added 63 volumes to the library, bought new stage curtains, painted the auditorium, bought 16 new chairs, and new lamps with money raised by giving plays.

PRINCIPAL B. H. LEWIS, *Liberty High School*:

To our library we have added 8 historical volumes, several reference books, and Congressional Records.

We have planted 15 trees, built 2 basket-ball courts, and built our heating system.

PRINCIPAL D. C. JOHNSON, *Trinity High School*:

We have oiled our floors, whitewashed the walls, repaired the plastering, bought 15 new patent desks, did some repair work on the building, and built up our walks.

We are rather proud of the fact that at the High School Declaimers' Contest at Durham our representative, Joseph Ellis, won the medal for best declamation.

Richmond County

PRINCIPAL W. C. MCCOLL, *Roberdell High School*:

A new auditorium has been built which, with folding doors, makes two nice classrooms. We have also fitted up a room for domestic science.

Robeson County

PRINCIPAL JAMES HUTCHINS, *Lumber Bridge High School*:

Some work has been done on the school grounds; the floors have been

oiled; \$50 worth of material equipment for use in teaching has been purchased; and money has been raised to paint the school building. An enthusiastic school spirit has grown up during the year.

PRINCIPAL M. C. McLEOD, *Philadelphus High School*:

Our dormitory has been painted and the grounds beautified.

Rockingham County

PRINCIPAL H. W. BAKER, *Ruffin High School*:

I consider that the standard of the school has been raised about one year during the past two years.

Rowan County

PRINCIPAL R. D. JENKINS, *China Grove High School*:

During the past year we have made the following improvements: model barn, \$1,060; pair Percheron mares, \$485; pair pigs, \$12.50; poultry plant and chickens, \$100; wagon, harness, and disc harrow, \$100. To our library we have added \$15 State selection and 15 volumes Stoddard's Lectures, \$58. We have also put in 40 adjustable single desks at a cost of \$134.

Donations were secured by the principal as follows: Civic League, Salisbury, \$70 (furniture for parlor in dormitory); county board of commissioners, \$113 for beds and mattresses for dormitory; Miss Mary McGill, Philadelphia, \$50 cash.

Rutherford County

PRINCIPAL J. E. CRUTCHFIELD, *Rutherfordton High School*:

During the past year six recitation rooms have been added; city water, water-closets, sanitary drinking fountains, and a telephone have been installed. A \$25 combination desk and bookcase has been placed in the superintendent's office.

Sampson County

PRINCIPAL J. A. WILLIAMS, *Clinton High School*:

A nice coping placed along the 80-yard front street before the school building at a cost of \$150.

A lyceum course of six excellent numbers was held under the auspices of the school. From this the school realized a little more than \$20.

All teachers below the high school were selected on the condition that they attend a creditable summer school for at least four weeks and receive credit for work done.

Scotland County

PRINCIPAL S. W. RABB, *Laurinburg High School*:

A physics laboratory has been installed; biology will be given in the fourth year of high school work; and an additional teacher has been added to the faculty for next year.

Stanly County

PRINCIPAL N. E. WRIGHT, *New London High School*:

We have purchased new chairs for one room; also new blackboards, chairs for auditorium, new stoves, and have oiled the floors.

This year we added the tenth grade by having a half-time assistant high school teacher.

By various entertainments our people raised \$241 for school work. This makes over \$1,000 raised in various ways during the past three years, or during my principalship.

Stokes County

PRINCIPAL A. R. PHILLIPS, *King High School*:

Shade trees have been set out; \$150 raised for piano; \$50 besides this is ready to help build an assembly room, provided we can secure a teacher to take charge of excess pupils and use same as a classroom.

PRINCIPAL A. R. GAY, *Pinnacle High School*:

Attendance has increased 50 per cent.

PRINCIPAL E. S. HENDREN, *Walnut Cove High School*:

Money was raised by an entertainment to buy 30 new patent desks. Arbor Day was observed and 13 trees planted.

At commencement a mass-meeting was held for the purpose of considering plans for enlarging the building. It was decided to try to vote \$2,500 in bonds for this purpose, the county commissioners having promised to give \$1,250. Such an attempt failed in 1915, but it is believed that the people now realize the need of a larger building, and it seems that the bonds will be voted this time.

Swain County

PRINCIPAL HARRY F. LATSHAW, *Almond High School*:

Our building, library, and laboratory are valued at \$3,178. During the year the following improvements were made: building, \$1,000; library, \$20; and laboratory, \$113.

The school committee is figuring on building either a dormitory or an auditorium, according as funds permit. We expect to do four years high school work next year.

The school is doing extension work this summer by promoting boys' corn clubs and girls' tomato clubs under the supervision of Mrs. Latshaw and myself. An economic and social survey of Swain County is to be started this summer and completed next school year with the coöperation of the county clubs and Professor Branson at the University of North Carolina. This agricultural work and survey work is done in the light of extension or social service work by the Almond High School.

PRINCIPAL A. B. COMBS, *Bryson City High School*:

We have added about \$60 worth of apparatus to our physics laboratory, 50 volumes to our library and spent about \$30 on athletic supplies.

Transylvania County

PRINCIPAL ALSEY F. MITCHELL, *Penrose High School*:

We had a number of entertainments during the session, and some of the most prominent men in the State addressed us.

Our Commercial Department has proved to be a great addition to the school. Mr. Joe Lyday won the Davidson scholarship. Each of the following stu-

dents won a \$5 gold medal during the session for recitations: Misses Fay Clayton and Marie Lyday; for declamations, Messrs. Newton Picklesimer and Rupert Lyday.

At present the church and school property is vested in the same board. Plans are now on foot to vest the school property in the county board of commissioners in order to get \$1,200 from the county to aid in putting up a new building.

An election is set for May 30, 1916, to increase the special tax levy from 20 cents to 30 cents on the \$100 property valuation, and the poll tax from 60 cents to 90 cents. The object of this increase in taxes is to lengthen the school term from seven and a quarter months to eight months and help in putting up the new proposed building.

PRINCIPAL G. L. TABOR, *Rosman High School*:

The community raised \$40 and the teachers contributed \$41 in time to lengthen the school term. Ten dollars was contributed for buying books and \$2 for leveling the grounds. The average attendance was raised from 11½ to 25.

Union County

PRINCIPAL J. T. YEARGIN, *Unionville High School*:

We have purchased a water cooler and introduced individual drinking cups, put in window glasses, and organized a band of fourteen pieces, which is doing good work.

We have a movement on foot to build a modern brick building next year.

PRINCIPAL E. P. MENDENHALL, *Wesley Chapel High School*:

A lot adjoining the school grounds was donated by a member of the committee, Mr. H. L. Price. Here we erected and furnished a new frame building dormitory. The four buildings, built and now paid for, entirely at the expense of the district, present an attractive appearance in the large oak grove.

The school is well equipped with patent desks, maps, and globes. Two hundred dollars was recently spent for new single desks. We made over \$40 by entertainments, which we spent in improving the basket-ball and volley-ball grounds and for books for the library. For two years we have won the prize for the best exhibit at the county commencement. We have also won several individual prizes in this contest.

The district has raised the tax levy from 40 cents to 50 cents on the \$100.

Vance County

PRINCIPAL J. E. HOLMES, *Townesville High School*:

We have added a new classroom and a music room, both of which have been furnished. Some repair work has been done on the building and the grounds improved. A fuel house has been built and new stoves put in all the rooms. An extra teacher has been added to our force.

PRINCIPAL J. ED BAGWELL, *Bona Vista High School*:

Since last report one room has been supplied with 20 chairs, 4 tables, a four-burner oil stove, and other domestic science equipment. Provisions for running water have been made and sink installed.

We have made another basket-ball court.

Wake County

PRINCIPAL R. L. BROWN, *Bay Leaf High School*:

We have added a new room to our building and another teacher to our faculty. The dormitory has been painted, and we are now planning to paint the building.

PRINCIPAL M. B. DRY, *Cary High School*:

A new thirty-two-room brick dormitory with all modern conveniences is being erected at a cost of \$10,000.

We have spent \$200 for playground apparatus. In addition, we have two tennis courts and one combination basket-ball and tennis court. The Woman's Betterment Association is planning to beautify the grounds.

PRINCIPAL E. H. MOSER, *Wakelon High School*:

A barn has been built on the school farm and \$8,000 issued in bonds for a girls' dormitory. We have purchased a ten-room building near the school grounds for a boys' dormitory, and expect to build a cottage on the farm.

Trees have been planted on the grounds. The interest the people have taken in the school has resulted in an enrollment of over 500 and an average attendance of about 400.

Warren County

PRINCIPAL HERBERT SCHOLZ, *Macon High School*:

Work is soon to begin on a new \$10,000 brick building, which is to be completed by October 15, 1916. We hope the patronage will justify converting the old building into a dormitory.

PRINCIPAL H. C. CRAVER, *Wise High School*:

The heating system has been remodeled, the building repaired, and a teacher's desk purchased. The blackboards have been repaired, the floors oiled, and pictures hung on the walls. Two literary societies, one for boys and one for girls, have been organized.

The Betterment Association has aided in these improvements and now has about \$100 in the treasury which will be used to complete the auditorium.

Wayne County

PRINCIPAL W. W. ROGERS, *Falling Creek High School*:

The building has been painted inside and outside, the stables whitewashed, and shade trees planted. Three basket-ball courts have been put up, an additional room added, and a permanent stage put in the principal's room.

The teachers secured an enrollment of 61 members in the various agricultural clubs. Four pure-bred Poland-China pigs were given to the pupils of this school by the Wayne National Bank.

An oil stove has been added to the equipment in order that we may have domestic science next year. The patrons and pupils are greatly interested in agriculture and domestic science.

Wilkes County

PRINCIPAL HOMER HENRY, *Wilkesboro High School*:

We spent \$110 in improving the well at the dormitory.

Wilson County

PRINCIPAL J. S. EDWARDS, *Lucama High School*:

We have graded our school grounds, improved our basket-ball courts, tennis courts, and baseball diamond. We have put new desks and stoves in the high school rooms and have started a library.

PRINCIPAL J. T. LAZAR, *Rock Ridge High School*:

New dormitory built and nearing completion.

PART TWO—CITY AND TOWN HIGH SCHOOLS

GENERAL COMMENT

City and Town High Schools Not Operated Under Public High School Law. We have in North Carolina two systems of public high schools, or rather, two parts of one system. The city high school is organized as a part of the city public school system, which is operated, as a rule, under a special charter, and is, therefore, independent of the operation of the public high school law, unless approved as a county high school under section 6 of this law.* The city school officials are not required by law to make to the State Superintendent of Public Instruction a separate financial and statistical report of their high school departments, and so it is impossible to give in detail the complete and accurate information regarding the operation of this part of our public high school system that is given for the rural public high schools which receive State aid.

New Buildings During Year.—The reports of the superintendents show that during the past year the towns and cities listed below have erected new buildings for their high school departments, or have new buildings under construction. It should be understood that in nearly all cases these buildings accommodate not only the high school grades but some of the lower grades as well.

Asheville	New building begun	\$ 200,000
Burlington	New building ready.....	45,000
Edenton	New building ready.....	32,000

Other Information.—The main facts regarding the city and town high schools will be found in Tables IV and V, Part Two of this report. For the progress report during the past year the reader is referred to the abstracts from the superintendents' reports printed below. Of course, this statement of the past year's progress is incomplete, since many of the superintendents failed to report improvements. The list of graduates from the city high schools offering four-year courses are given in Part Three of this report.

*The high school departments of the following six towns and cities are approved under this section as county high schools: Hendersonville, Laurinburg, Louisburg, Marion, Southport, and Tarboro. The statistics for these six schools will be found in Tables I, II, III, giving the statistics for the rural public high schools.

EXTRACTS FROM CITY SUPERINTENDENTS' REPORTS**Asheville High School**

SUPERINTENDENT HARRY HOWELL:

The most significant achievement of the year was the voting of \$200,000 bonds for a modern fire-proof building.

Burlington High School

PRINCIPAL J. H. McEWEN:

We have built during the year a building costing about \$45,000. This is not exclusively for the high school, but the high school will be in it.

We have added domestic science to the course of study for another year.

I believe the spirit of the school is better. The coöperation of the people is noticeable.

Clayton High School

SUPERINTENDENT M. A. HUGGINS:

A decided step forward has been made in trying to bring about proper organization and in standardizing the course of study. Last year Latin was almost dropped. Hence, as is shown in this report, students are badly behind in Latin. For the most part the Latin-scientific curriculum is followed, as suggested in the State High School Course of Study.

The high school has not been as distinct from the elementary school as it should be. Next year it will be. A larger teaching force has been added.

Edenton High School

SUPERINTENDENT M. L. WRIGHT:

The new building under construction will cost \$32,000, and will be thoroughly modern.

Graham High School

SUPERINTENDENT C. W. RANKIN:

Out of a total enrollment of 52 in the high school 47 completed their courses for the year. Of the five who did not, three were doing good work but moved away during the year and two stopped during the year. No pupil who attended the entire year failed to be promoted. Fourteen high school pupils received certificates for perfect attendance, and 15 received honor certificates.

Two of our high school students, Myrtle Cooper and Boyd Harden, won the Aycock Memorial Cup.

Greenville High School

SUPERINTENDENT HOY TAYLOR:

We have a new building just being completed for next year. The new building is being erected at a cost of about \$30,000, and is intended to house the high school and the sixth and seventh grades.

We expect to install a laboratory for two or three years of science, and a fourth teacher will be added next year to the high school department.

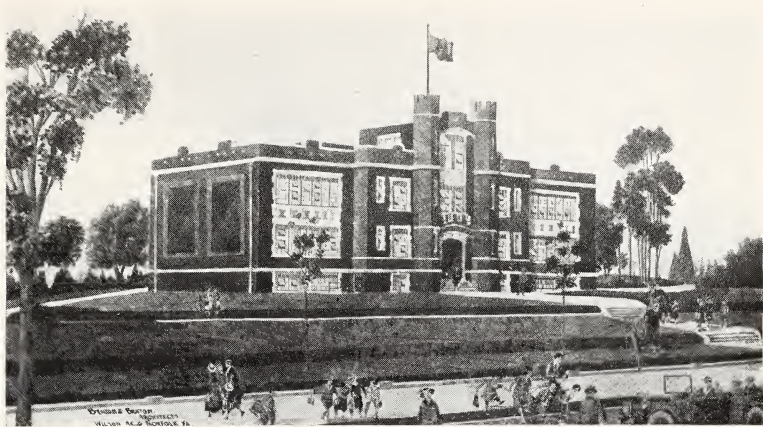

Hertford High School

SUPERINTENDENT L. R. CRAWFORD:

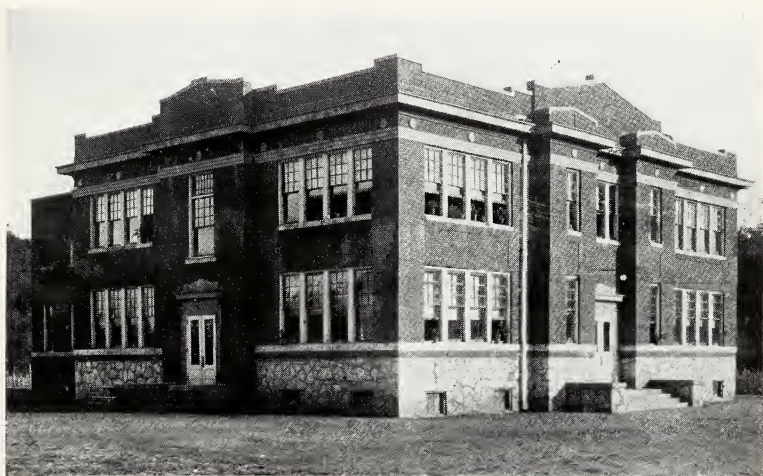

An additional teacher was secured for the high school classes since last report.

The school district has been enlarged to embrace about a two-mile radius through surrounding country. The former district extended only to municipal limits. The salary of all teachers has been increased \$5 per month.

The new district has brought a number of former county pupils into the school and the enrollment in the high school has been materially increased.

SELMA PUBLIC SCHOOL, 1916. Cost, \$40,000

OLD FORT GRADED SCHOOL, 1915. Cost, \$20,000

Hickory High School

SUPERINTENDENT CHARLES M. STALEY:

There has been a marked growth in enrollment and attendance in the high school. Every pupil promoted in 1915 to the eighth grade was present and enrolled on the opening day. No pupils lost from the eighth to the ninth grade. There is a fine spirit in the work of the high school.

Lenoir High School

SUPERINTENDENT HORACE SISK:

This year we are offering a fuller course of study. We have added a course in domestic science and next year we hope to report a still stronger curriculum.

The school is getting in fine shape financially.

Mooresville High School

SUPERINTENDENT W. C. ARIAIL:

It is pleasing to state that one graduate won a \$200 scholarship in a competitive examination to St. Mary's School, Raleigh. Two other young ladies have entered the State Normal College at Greensboro and are doing well. The young man has entered the University.

This was the first class to complete a full four-year course here. Heretofore the pupils have gone to school elsewhere without completing the course.

Our high school has formed a literary society and Mooresville was represented at Chapel Hill. A basketball team was organized last year and made a remarkable record for the first year.

Mount Airy High School

SUPERINTENDENT IRA T. TURLINGTON:

Since the last report the bond issue of \$25,000 has been sold, a suitable site secured, and a new building commenced. The new building will be devoted mainly to the high school pupils, though there will be three rooms used by the lower grades. One teacher is to be added to the high school teaching staff. In the basement there are to be accommodations for games, and on the grounds around the building there will be a good deal of space for play. The Woman's Betterment Association is taking an interest in beautifying the grounds, and during the past year has made considerable improvements.

New Bern High School

SUPERINTENDENT H. B. SMITH:

We have this year instituted a science course requiring laboratory and note-book work. Also we have added much equipment to our laboratory. We have adopted a new form of certificate or diploma and have created a system of records for the high school. We anticipate soon a high school doing 14 to 15 units of work.

North Wilkesboro High School

SUPERINTENDENT W. G. GASTON:

Two live literary societies have been organized in the high school this year and these have done splendid work. Strong athletic teams, equipped with school uniforms, have been sent out to represent the school for the first time. Many additions have been made to our excellent library.

On the last night of commencement the business men of North Wilkesboro showed their appreciation of the school by publicly presenting the superintendent with a handsome gold watch.

Oxford High School

SUPERINTENDENT J. A. PITTS:

We have installed an electric program clock system.

The plan of having the various grades lead in chapel exercises was adopted and it has been a great success.

Red Springs High School

SUPERINTENDENT S. E. LEONARD:

The building is now being completed with the money made available by an additional bond issue of \$7,500. We hope to have money sufficient to equip the building throughout.

Reidsville High School

SUPERINTENDENT J. WINGATE ANDREWS:

\$500 has been spent for improvement of grounds.

Rockingham High School

SUPERINTENDENT L. J. BELL:

A domestic science course was added last year, and the following equipment, costing about \$400, was installed: Majestic range, one 4-burner oil stove, 18 small oil stoves, and domestic science tables for 18 pupils. Two Victrolas were also purchased, one costing \$67.50 and the other \$25.

Sanford High School

SUPERINTENDENT C. E. TEAGUE:

An additional building is being erected to relieve crowded condition. It is to have nine rooms and will be the high school building.

Smithfield High School

SUPERINTENDENT A. VERMONT:

New radiators have been put in, and another room furnished.

Wadesboro High School

SUPERINTENDENT J. H. McIVER:

We broke even with Rockingham in the State-wide debate on "Preparedness."

Our first graded school first-graders are now reaching the high school well prepared. Next year we will have 33 in the first year of the high school and a big per cent will go through the high school and to college.

When the eleventh grade was first added to the high school it reduced the attendance in the high school and especially the number of graduates, for so many so-called colleges are glad to get them at any stage of preparation and take them before completing our work here.

Waynesville High School

SUPERINTENDENT J. D. EVERETT:

At the end of the first month this year we added one high school teacher. We also added a course in science for second year, and two courses in American literature for third and fourth years.

Wilmington High School

SUPERINTENDENT J. J. BLAIR:

The high school offers a course in sewing and cooking. The equipment, counting stoves, machines, desks, etc., is worth about \$750. A lunch counter run by this department practically pays all running expenses of the department.

The school has a telescope worth \$500, mounted in a well-placed observatory, and an X-ray machine worth \$250. A wireless outfit worth \$100 is also the property of this institution.

Winston-Salem High School

SUPERINTENDENT R. H. LATHAM:

We have a printing department with a fair amount of equipment which does not only our own work but takes in job work besides.

MISS HELENA JUDSON
Castle Hayne, N. C.

MISS JUDSON graduated with credit from the Wilmington High School in 1916. She lives at Castle Hayne, $8\frac{1}{2}$ miles from Wilmington. She rode her bicycle to and from school every day, and missed only three days from school in two years—one day in her junior year and one day in her senior year. During the two years, going to and from school, she traveled on her wheel a total distance of over 5,000 miles. Indomitable courage and perseverance, good roads, and good weather made this feat possible.

MISS JACKSON was a third-year high school pupil in the Asheville City High School in 1915-16. At the end of the year she had an attendance record of nine consecutive years (thirty-six weeks to the year) without being absent or tardy.

Explanatory Remarks

It should be understood that the farm-life school is, in every case except two, namely, Vanceboro and Clemmons, a department of the public State-aided high school, in which department special provision is made for affording boys of the country districts an opportunity to study agriculture and certain allied subjects, and for affording the girls an opportunity to study home economics and certain related subjects. It should also be understood that the funds for operating these special departments of agriculture and home

economics, or farm-life departments, are contributed by the county and the State, and that these funds are in addition to all other school funds contributed from these sources. This type of school is known in most States as the "agricultural high school," but with us it has been given the local name of farm-life school. In the farm-life departments of our high schools, however, instruction in the farm-life subjects is not confined to the high school grades; these departments are open also to pupils of the grammar and intermediate grades of the local elementary school operated in connection with the high school; and, too, certain lines of extension work and home project work are carried on in the community not only during the regular session, but also in vacation time.

There are now in operation twenty-one farm-life school departments. These 21 schools are located in 17 counties, as follows: Guilford has 3, Wake has 2, Durham has 2, Iredell, Craven, Robeson, Harnett, Nash, Wilson, Rowan, Gaston, Forsyth, Moore, Mecklenburg, Bertie, Catawba, and Northampton have one each. They are distributed over the central part of the State—from Craven and Bertie in the east to Catawba in the west. It is the hope of the State Superintendent of Public Instruction that eventually every county in the State shall have at least one such school.

The Craven County Farm-Life School at Vanceboro is the only school established under the original act providing for farm-life schools. Under the requirements of this original act there is operated in connection with this farm-life school a four-year high school which receives State-aid under the general high school law. The Forsyth County Farm-Life School at Clemmons is operated under a special act. There is a high school department operated in connection with this school but it does not receive State aid from the special appropriation for public high schools for the reason that Forsyth County was already receiving State-aid for four high schools, the maximum number allowed when this school was converted into a farm-life school. With the exception of these two schools, the farm-life schools are operated under what is known as the Guilford County Farm-Life School act which was passed in 1911, and was made of State-wide application in 1913, and under the provisions of this act are, as stated above, departments of the public high schools in connection with which they are operated. It is true that special acts were passed authorizing some of the counties to establish farm-life departments, yet, except as noted above, the appropriations are made and the schools conducted as provided for in the Guilford act.

The figures given in the following tables are taken in the main from special reports sent in by the principals of the schools in November and in some cases from the final reports submitted last spring. The data on attendance, length of term, number of students pursuing the various branches, etc., for the several schools having farm-life departments will be found in tables I and II of Part One of this report.

The values of property shown in the following tables are estimates given by the principals and are given as a rule in round numbers. They can be regarded in most cases only as approximations. It should be understood that the buildings, dormitories, and apparatus in these several schools are used for the entire high school and not simply for the farm-life departments, and that the value given for the plant is for the entire plant which is used for the community's elementary school and for the State-aided high school as well.
